As predicted by freight officials of Indianapolis, the freight tonnage of October still more gratifying could the transportation department have furnished cars and bound there will be no delay. power to move freight which is still awaiting shipment. The train records show that there were received at and forwarded from this point last month a total of 125,866 cars, 106,681 being loaded, against 97,666 in October, 1900; 102,444 in 1899; 103,908 in 1898; 93,976 in 1897, and 76,351 in 1896. The exhibit for 1901 is the more remarkable when it is considered that grain shipments were fully 60 per cent, lighter than in October of either freights were carried at tariff rates, which was not the case in either of the preceding five years. More especially were rates badly demoralized in 1898 and 1899. Another feature of last month's business was the evenness in movement of loaded cars in iron workers, men familiar with the following cars a very light movement of empty cars is shown. Northwestern Tangle Unraveled. It was unofficially stated at New York the Northwestern Railroad situation resulting from the corner of Northern Pawill be settled. Officials connected with the various companies at interest absolutely refuse to give out any statement in regard to the rumored agreement. It was stated on good authority, however, that the settlement, involving the widespread interests of the Union Pacific Railway, the Great Northern and the Northern Pacific Railirement of the Northern Pacific preferred stock on a basis of 115 or above, and the issuance of 41/2 per cent. bonds, onethird of which, it was stated, would be alloted to the Union Pacific interests. The crux of the reported agreement lay in the proposed division of territory whereby the railroads mentioned shall have complete traffic agreements regarding a certain teritory in the country tapped by those lines. It is generally understood that this plan of settlement waits the approval of W. K. Vanderbilt, who is expected to arrive from Europe on Wednesday's steamer.

## STREAM POLLUTION.

Mr. Sears Again Argues in Behalf of the Factories.

To the Editor of the Indianapolis Journal: I wish to correct Mr. Matthews in regard Matthews says: "They (the farmers) have no fight to make, and have made none or works, nail manufactories and other concerns alluded to." Mr. Matthews is not well posted on his subject, for if he will examine the court docket of Madison county nail mills, the American Tin-plate Company, the American Strawboard Company, operate without drainage. I will stick to lose their positions in the gas belt, beside their homes, if the farmers persist in fightroad will be based primarily on the re- ing the factories and in their use of the ural sewerage. It is not desirable that the spirit of antagonism against manufacturing institutions go out from the State. There have an outlet by stream or river. As stated before, the stream pollution comes from city sewage, which Dr. J. N. Hurty says is the cause of the water of the rivers and creeks being untit for use. Let it be understood. I have no interest or stock in any factory in Indiana, but want justice for the greatest number of citizens (the great laboring class), who are buying their homes by monthly payments, and as the fight is waged entirely against corporations or trusts, the danger lies in the trusts removing their plants from Indiana to more favorable locations and conditions. On Commission row, for Monday, business was good. It making the line a producer as well as a is expected that the colder weather will incoal carrier, and it is stated this means crease the demand for apples, potatoes and that the road will handle at least 4,000,000 other produce, as the time to store for the tons more of coal per annum than at preswinter is now at hand. In prices, yesterday, there were several changes. Poultry, eggs and butter had an advancing tendency. Some shippers paid 18 cents for eggs. Arrivals are light, and there is an active demand. Turkeys are moving better and advanced 1 cent a pound. Butter is very firm at quotations and for choice better than the the Vanderbilts have been renewed at To- | highest quotation was realized in some cases, although the Journal prices are those furnished by the shippers and repredent Norton. The latter went East with Mr. | sent the figures that can be relied on regardless of the amount of produce offered. Hides rule steady, with moderate receipts, while leather is active and prices very firm at quotations. Dried and evaporated fruits are in better demand than at any time for some months and canned goods are being sought for. Still jobbers are unable to push up prices, but may later do so when the real condition of stocks is better understood. Provisions are good movers, both domestic and export trade being very satisfactory in volume. It is a quiet time with Ohio Southwestern are ready to move in the seed merchants. Coal dealers are very the matter, but the Pennsylvania has not busy, but have not, as yet, advanced prices over October quotations. Irish potatoes cent. of the cost and the city the other 35 | and choice apples are selling at higher figper cent., and in turn the city wants the ures than at any time this season, and street-railway companies to pay the city's | should the cool weather continue a strong tone to both markets is looked for. Orget their St. Louis-Toledo line via the langes are coming on the market in larger quantities and present prices probably will be shaded before the week closes.

The local grain market is rather quiet on light receipts. Corn advanced to 60 cents ent improvements to the Logansport & for best grades yesterday, and the market dition, the sixteen miles difference will cut | closed firm for all cereals. Track bids, reported by the secretary of the Board of
